

Guidelines for Faculty Norms, Student Faculty Ratio and Faculty Retention Ratio

1. Faculty Norms

- a. All the faculty whether regular or contractual (except part-time or hourly based), will be considered. All regular faculty members shall meet the AICTE qualifications and experience requirements. The contractual faculty appointed with any terminology whatsoever, who have taught for 2 consecutive semesters with or without break between the 2 semesters in corresponding academic year on full-time basis shall be considered for the purpose of calculation in the faculty student ratio. However, following will be ensured in case of contractual faculty:
 - i. Shall have the AICTE/PCI/COA prescribed qualifications and experience.
 - ii. Shall be appointed on full time basis and worked for consecutive two semesters with or without break between the 2 semesters during the particular academic year under consideration.
 - iii. Should have gone through an appropriate process of selection and the records of the same shall be made available to the visiting team during NBA visit.
- b. All the faculty, whether regular or contractual (except part-time or hourly-based), will be considered, is to be counted in the respective year, if the faculty has joined on or before 31st August of that year and has continued at least until 30th April of the following year.
- c. The available and required number of Ph.D. would be calculated on the average basis for CAY and CAYm1. The available and required number of Ph.D. shall be truncated to its nearest lower integer.
- d. In the multidisciplinary areas (like MBA or PGDM) or specialized areas like Biotechnology, all the qualifications relevant and purposeful to those disciplines need to be considered, in addition to the M.Tech/ MBA/PGDM degrees.
- e. There is no age limit for consideration of the emeritus faculty as long as they are physically fit to take classes and engage with students, and are employed on a full-time basis.
- f. The Pharmacy faculty designated as Lecturer/Assistant Professor with minimum qualification of M.Pharm/Pharm D will be considered. However, Pharmacy faculty having Ph.D. degree will only be considered as Associate Professor even if the PCI norms do not make Ph.D. degree mandatory with respect to the designation of Associate Professor.
- g. Academic year is considered from July to June.
- h. The transition point for the CAY from one Academic Year to the next Academic Year will continue to be decided as per NBA's current policy on the basis of SAR submission date i.e. if the SAR is submitted on or before 30th September, the CAY shall be the previous academic year and if the SAR is submitted after 30th September, the CAY shall be the running academic year.

- i. SAR submission Process as per CAY
 - i. Institutions must submit both the Pre-Qualifiers (PQ) and Self-Assessment Report(s) [SAR(s)] during the same Current Academic Year (CAY) for which the application link is available on the NBA portal.
 - ii. If the institution submits the PQ but fails to submit the SAR(s) within that CAY, the application will automatically become inactive/disabled at the end of the academic year i.e 30 September.
 - iii. In such cases, the institution cannot continue with the same application. Instead, it must start a new application afresh in the next CAY and complete the process again.

❖ Example:

- Suppose an institution receives the NBA portal link in CAY 2025–26.
- SAR needs to be submitted on or before 30 September 2026

CAY : Current Academic Year

CAYm1 : Current Academic Year Minus 1 = Current Assessment Year

CAYm2 : Current Academic Year Minus 2 = Current Assessment Year Minus 1

The year mentioned in the documents are just the examples; Institute has to consider the academic years as per the definition of CAY given in the document and according to the prevailing year.

2. **The Student Faculty Ratio (SFR) considered by NBA:**

1. **UG Engineering Programs (Tier I & Tier II):-** 25:1 for the Accreditation of 3 years and 20:1 for the Accreditation of 6 years.
2. **PG Engineering Programs:** 25:1 for the Accreditation of 3 years and 20:1 for the Accreditation of 6 years.
3. **Diploma Engineering Programs:** For old format, 30:1 for the Accreditation of 3 years and also 6 years. For new format. 30:1 for the Accreditation of 3 years and 25:1 for the Accreditation of 6 years.
4. **PG Management Programs:** 25:1 for the Accreditation of 3 years and 20:1 for the Accreditation of 6 years.
5. **UG Pharmacy:** 20:1 for the Accreditation of 3 years and 15:1 for the Accreditation of 6 years.
6. **PG Pharmacy:** 20:1 for the Accreditation of 3 years and 15:1 for the Accreditation of 6 years.
7. **Diploma Pharmacy:** 25:1 for the Accreditation of 3 years and also 6 years.
8. **Bachelor of Hotel Management and Catering Technology:** 25:1 for the Accreditation of 3 years and also 6 Years.

3. Faculty Retention Ratio considered by NBA:

Example (OLD SAR): Faculty Retention

Item	CAY (2024-25)	CAYm1 (2023-24)
No. of faculty retained	3	6
Total no. of required faculty in CAYm2	6	
% of faculty retained	50%	100%
Average faculty retained	$(50+100)/2=75\%$	

Example (NEW SAR of UG (Engineering)): Faculty Retention

Item	CAY	CAYm1	CAYm2
RF=No. of required faculty in the Department to adhere to the 20:1 Student-Faculty ratio, with calculations based on both student numbers and faculty requirements as per section 5.1 of SAR; (RF=DS/20).	$1,964/20=98$	$1,954/20=97$	$2,307/20=95$
AF=The no. of available faculty members in the Department	95	99	100
A=The no. of faculty members at the current institute with less than 1 year of experience (A in AF)	1	0	2
B=The no. of faculty members at the current institute with more than 1 year and less than 2 years of experience (B in AF)	2	3	10
C=The no. of faculty members at the current institute with more than 2 years and less than 3 years of experience (C in AF)	1	2	2
D=The no. of faculty members at the current institute with more than 3 years and less than 4 years of experience (D in AF)	1	0	1
E= The no. of faculty members at the current institute with more than 4 years of experience (E in AF)	90	94	85
FR=(((A*0) + (B*1) + (C*2) + (D*3) + (E*4))/RF) * 2.50 (Points limited to 10)	$FR_1=((0+2+2+3+360)/98)*2.50=9.36$	$FR_2=((0+3+4+0+376)/97)*2.50=9.87$	$FR_3=((0+10+4+3+340)/95)*2.50=9.39$
Average FR= ((FR_1+ FR_2+ FR_3)/3) (Marks limited to 10)	$(9.36+9.87+9.39)/3=(28.62/3)=9.54$
