

Criterion 9: Student Support Systems

9.1 Mentoring System

A strong mentoring system is in place. Each faculty member is assigned 15-20 students. Mentors meet their mentees fortnightly to discuss academic progress, career goals, and personal issues. A centralized digital portal tracks mentoring records.

9.2 Anti-Ragging and Grievance Redressal

The college maintains a strict zero-tolerance policy towards ragging. An active Anti-Ragging Committee and Squad monitor the campus. The Grievance Redressal Cell addresses student complaints efficiently.

9.3 Co-curricular and Extra-curricular Activities

The CSE department has active student chapters of IEEE, CSI, and ACM.

- 'TechFest': An annual national-level technical symposium organizing coding contests, hackathons, and paper presentations.
- 'Cultural Fest': Annual cultural event promoting arts, music, and dance.
- Sports: Excellent sports facilities available; students actively participate in university-level tournaments.

9.4 Career Guidance and Training

The Training and Placement Cell conducts extensive training programs starting from the 2nd year.

- 2nd Year: Communication skills and aptitude training.
- 3rd Year: Technical training (Data Structures, Algorithms) and coding bootcamps.
- 4th Year: Mock interviews, group discussions, and company-specific training.
